Registrant's telephone number, including area code: (713) 207-1111

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

[] Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

[] Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

[] Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On February 28, 2006, CenterPoint Energy, Inc. ("CenterPoint Energy") reported fourth quarter and full year 2005 earnings. Certain information regarding CenterPoint Energy's fourth quarter and full year 2005 earnings is included in Item 8.01 below. For additional information regarding CenterPoint Energy's fourth quarter and full year 2005 earnings, please refer to CenterPoint Energy's press release attached to this report as Exhibit 99.1 (the "Press Release"), which Press Release is incorporated by reference herein. The information in the Press Release is being furnished, not filed, pursuant to Item 2.02. Accordingly, the information in the Press Release will not be incorporated by reference into any registration statement filed by CenterPoint Energy under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated therein by reference.

ITEM 8.01. OTHER EVENTS.

Fourth Quarter and Full Year 2005 Results

Net income was \$81 million, or \$0.25 per diluted share, for the fourth quarter of 2005 compared to \$100 million, or \$0.29 per diluted share, for the same period of 2004. For the year 2005, net income was \$252 million, or \$0.75 per diluted share, compared to a net loss of \$905 million, or \$2.48 per diluted share, for 2004.

Net income for 2004 included a \$977 million extraordinary loss from the write-down of generation-related regulatory assets as a result of actions taken by the Texas Public Utility Commission (PUC), \$83 million of this amount was recorded in the fourth quarter. Net income for 2004 also included a \$133 million overall loss from discontinued operations, although there was a \$21 million gain from discontinued operations recorded in the fourth quarter of 2004. Net income for 2005 included a \$30 million positive adjustment to the 2004 write-down of generation-related regulatory assets and a \$3 million loss from discontinued operations.

Income from continuing operations before extraordinary item for the fourth quarter of 2005 was \$81 million, or \$0.25 per diluted share, compared to \$162 million, or \$0.46 per diluted share, for the fourth quarter of 2004. Income from continuing operations before extraordinary item for the year 2005 was \$225 million, or \$0.67 per diluted share, compared to \$205 million, or \$0.61 per diluted share, for 2004.

As a result of actions taken by the PUC, in the fourth quarter of 2004 CenterPoint Energy recorded pre-tax income of \$226 million related to interest on CenterPoint Energy's authorized true-up balance. Of this amount, \$131 million related to 2004 (\$36 million related to the fourth quarter of 2004) and \$95 million related to periods prior to 2004.

ITEM 9.01. FINANCIAL STATEMENTS AND EXHIBITS.

The exhibit listed below is furnished pursuant to Item 2.02 of this Form 8-K.

(d) Exhibits.

99.1 Press Release issued February 28, 2006 regarding CenterPoint Energy, Inc.'s fourth quarter and full year 2005 earnings.

CENTERPOINT ENERGY REPORTS FOURTH QUARTER AND FULL YEAR 2005 EARNINGS

5

HOUSTON, TX - FEBRUARY 28, 2006 - CenterPoint Energy, Inc. (NYSE: CNP) today reported net income of \$81 million, or 0.25 per diluted share, for the fourth quarter of 2005 compared to 0.20, income of 0.29 per diluted share for the same period of 2004. For the year 2005, the company recorded net income of 252 million, or 0.75 per diluted share, compared to a net loss of 0.28 million, or 0.75 per diluted share, for 2004.

Net income for 2004 included a \$977 million extraordinary loss from the write-down of generation-related regulatory assets as a result of actions taken by the Texas Public Utility Commission (PUC), \$83 million of this amount was recorded in the fourth quarter. Net income for 2004 also included a \$133 million overall loss from discontinued operations, although there was a \$21 million gain from discontinued operations recorded in the fourth quarter of 2004. Net income for 2005 included a \$30 million positive adjustment to the 2004 write-down of generation-related regulatory assets, and a \$3 million loss from discontinued operations.

Income from continuing operations before extraordinary item for the fourth quarter of 2005 was \$81 million, or \$0.25 per diluted share, compared to \$162 million, or \$0.46 per diluted share, for the fourth quarter of 2004. Income from continuing operations before extraordinary item for the year 2005 was \$225 million, or \$0.67 per diluted share, compared to \$205 million, or \$0.61 per diluted share, for 2004. As a result of actions taken by the PUC, in the fourth quarter of 2004 the company recorded pre-tax income of \$226 million related to interest on the company's authorized true-up balance. Of this amount, \$131 million related to 2004 (\$36 million related to the fourth quarter of 2004) and \$95 million related to periods prior to 2004.

"I am very pleased with our overall progress and accomplishments in 2005," said David M. McClanahan, president and chief executive officer of CenterPoint Energy. "2005 was a year of significant milestones for our company, marking the end to our transition. We completed the sale of our power generation business and began to recover our authorized true-up balance through the implementation of a competition transition charge and the issuance of \$1.85 billion of transition bonds. We repaid our high-cost \$1.31 billion term loan, reduced other debt and restructured our credit facilities to reduce interest costs, extend maturities and improve terms. Now that our transition is behind us, we look forward to further improving our operating performance while we explore opportunities to grow in a disciplined manner."

FOR IMMEDIATE RELEASE

Page 2 of 5

OPERATING INCOME BY SEGMENT DETAILED

ELECTRIC TRANSMISSION & DISTRIBUTION

The electric transmission & distribution segment generated operating income of \$102 million in the fourth quarter of 2005, consisting of \$90 million for the regulated electric transmission & distribution utility (TDU) and \$12 million for the transition bond companies, which is an amount sufficient to pay interest on the transition bonds. Operating income for the fourth quarter of 2004 totaled \$104 million, consisting of \$95 million for the TDU and \$9 million for the transition bond company.

Revenues increased in the fourth quarter of 2005 primarily due to continued customer growth with the addition of over 60,000 metered customers since December 2004, increased customer usage and the implementation of a competition transition charge (CTC) in September 2005. Operating expenses increased primarily due to higher transmission costs, labor and benefit-related expenses, tree trimming expenses, and increased franchise fees paid to the City of Houston under a new 30-year franchise agreement.

Operating income for the year 2005 was \$487 million, consisting of \$448 million for the TDU and \$39 million for the transition bond companies. Operating income for 2004 totaled \$494 million, consisting of \$441 million for the TDU, \$38 million for the transition bond company, and a \$15 million reversal of a reserve related to the final fuel reconciliation of the former integrated utility recorded in the fourth quarter of 2004.

For the year 2005, revenues increased primarily due to continued customer growth, increased customer usage driven by warmer weather, higher transmission cost recovery and implementation of the CTC. Operating expenses increased primarily due to higher transmission costs, labor and benefit-related expenses, tree trimming expenses, depreciation and amortization, and the increased franchise fees paid to the City of Houston. Operating expenses for 2004 reflected an \$11 million credit from a land sale.

NATURAL GAS DISTRIBUTION

Beginning with the fourth quarter of 2005, the natural gas distribution segment excludes the company's non-rate regulated natural gas sales and services business, which is now reported as a separate segment, "competitive natural gas sales and services". All prior period segment information has been reclassified to conform to the 2005 presentation.

FOR IMMEDIATE RELEASE

Page 3 of 5

The natural gas distribution segment reported operating income of \$59 million for the fourth quarter of 2005, compared to \$69 million for the same period of 2004. Higher margins from the addition of nearly 44,000 customers since December 2004 were more than offset by increased litigation reserves and increased bad debt expense associated with higher natural gas prices.

Operating income for the year 2005 was \$175 million compared to \$178 million for 2004. The benefits from rate increases and customer growth were more than offset by reduced customer usage, increased bad debt expense and litigation reserves, and higher depreciation. In 2004, operating expenses reflected severance and associated benefit-related expenses due to an organizational restructuring.

COMPETITIVE NATURAL GAS SALES AND SERVICES

The competitive natural gas sales and services business is engaged in the sale of natural gas and related services primarily to commercial and industrial customers and electric and gas utility companies.

This segment reported operating income of \$30 million for the fourth quarter of 2005, compared to \$16 million for the same period of 2004. The increase was primarily attributable to higher sales to utilities and favorable basis differentials across the pipeline capacity that the company controls.

Operating income for the year 2005 was \$60 million compared to \$44 million for 2004. The increase was primarily attributable to the same items noted above. Partially offsetting the margin increase were the effects of mark-to-market accounting related to non-trading financial derivatives used to lock in economic margins of certain forward gas sales, as well as increased employee-related and bad debt expenses.

PIPELINES AND FIELD SERVICES

The pipelines and field services segment reported operating income of \$67 million for the fourth quarter of 2005 compared to \$57 million for the same period of 2004. Within this segment, the pipeline business achieved higher operating income (\$46 million vs. \$42 million) driven by increased demand for transportation resulting from basis differentials across the system and higher operating income (\$21 million vs. \$15 million) driven by increased throughput and demand, increased gas gathering and ancillary services, and higher commodity prices.

FOR IMMEDIATE RELEASE Page 4 of 5

Operating income for the year 2005 was \$235 million compared to \$180 million for 2004. Operating income for the pipeline business for 2005 was \$165 million compared to \$129 million for 2004. The field services business recorded operating income of \$70 million for 2005 compared to \$51 million for 2004. The improvements in operating income for the year resulted primarily from the same items noted for the quarter.

OTHER OPERATIONS

The company's other operations reported an operating loss of \$6 million for the fourth quarter of 2005 compared to a loss of \$15 million for the same period of 2004. The operating loss for the year 2005 was \$18 million compared to a loss of \$32 million for 2004.

OTHER 2005 EVENTS

Additional significant events for CenterPoint Energy during 2005 included:

- o completion of the sale of the company's generation assets; proceeds of \$2.231 billion and \$700 million were received in 2004 and 2005, respectively;
- o issuance of over \$1.85 billion in transition bonds to recover a portion of the company's authorized true-up balance;
- implementation of a CTC to begin recovering the remaining authorized true-up balance of \$596 million over 14 years, plus interest;
- o contribution of \$75 million to the pension plan in 2005 following a \$476 million pension plan contribution in 2004; and
- o completion of an exchange offer for \$572 million of the company's 3.75 percent convertible senior notes.

DIVIDEND DECLARATION

On January 26, 2006, CenterPoint Energy's board of directors declared a regular quarterly cash dividend of \$0.15 per share of common stock payable on March 10, 2006, to shareholders of record as of the close of business on February 16, 2006. In declaring this dividend, the board of directors indicated its intent to return to the company's traditional practice of paying consistent quarterly dividend. An annualized dividend based on a \$0.15 per common share quarterly dividend represents a 50 percent increase over the \$0.40 per common share in total dividends paid by the company in 2005.

FOR IMMEDIATE RELEASE

Page 5 of 5

OUTLOOK FOR 2006

CenterPoint Energy expects diluted earnings per share for 2006 to be in the range of \$0.90 to \$1.00. This guidance excludes any impacts related to the company's Zero-Premium Exchangeable Subordinated Notes (ZENS) and associated federal income tax consequences due to the uncertainties associated with the resolution of the ongoing dispute with the Internal Revenue Service. This guidance takes into consideration various economic and operational assumptions related to the business segments in which it operates. In particular, the company has made certain assumptions regarding the impact to earnings of various regulatory proceedings but cannot predict the ultimate outcome of any of those proceedings. In providing this guidance, the company has not projected the impact of any potential changes in accounting standards, any impact from acquisitions or divestitures, or the outcome of pending legal proceedings related to the company's true up appeal.

WEBCAST OF EARNINGS CONFERENCE CALL

CenterPoint Energy's management will host an earnings conference call on Tuesday, February 28, 2006, at 10:30 a.m. Central time or 11:30 a.m. Eastern time. Interested parties may listen to a live, audio broadcast of the conference call at www.CenterPointEnergy.com/investors/events. A replay of the call can be accessed approximately two hours after the completion of the call, and will be archived on the web site for at least one year.

CenterPoint Energy, Inc., headquartered in Houston, Texas, is a domestic energy delivery company that includes electric transmission & distribution, natural gas distribution and sales, and interstate pipeline and gathering operations. The company serves nearly five million metered customers primarily in Arkansas, Louisiana, Minnesota, Mississippi, Oklahoma, and Texas. Assets total approximately \$17 billion. With approximately 9,000 employees, CenterPoint Energy and its predecessor companies have been in business for more than 130 years. For more information, visit the Web site at www.CenterPointEnergy.com.

This news release includes forward-looking statements. Actual events and results may differ materially from those projected. The statements in this news release regarding future financial performance and results of operations and other statements that are not historical facts are forward-looking statements. Factors that could affect actual results include the timing and outcome of appeals from the true-up proceedings, the timing and impact of future regulatory and legislative decisions, effects of competition, weather variations, changes in CenterPoint Energy's or its subsidiaries' business plans, financial market conditions, the timing and extent of changes in commodity prices, particularly natural gas, the impact of unplanned facility outages and other factors discussed in CenterPoint Energy's and its subsidiaries' Form 10-Ks for the period ended December 31, 2004, Form 10-Qs for the periods ended March 31, 2005, June 30, 2005 and September 30, 2005, and other filings with the Securities and Exchange Commission.

(1) In accordance with Emerging Issues Task Force Issue No. 87-24 "Allocation of Interest to Discontinued Operations", in 2004, we have reclassified interest to discontinued operations of Texas Genco based on net proceeds received from the sale of Texas Genco of \$2.5 billion, and have applied the proceeds to the amount of debt assumed to be paid down in 2004 according to the terms of the respective credit facilities in effect for that period. In periods where only the term loan was assumed to be repaid, the actual interest paid was reclassified. In periods where a portion of the revolver was assumed to be repaid, the percentage of that portion of the revolver to the total outstanding balance was calculated, and

that percentage was applied to the actual interest paid in those periods to compute the amount of interest reclassified.

Total interest expense was \$228 million and \$162 million for the three months ended December 31, 2004 and 2005, respectively, and \$849 million and \$711 million for the year ended December 31, 2004 and 2005, respectively. Interest expense of \$34 million for the three months ended December 31, 2004, and \$72 million for the year ended December 31, 2004, was reclassified to discontinued operations of Texas Genco.
