#### CENTERPOINT ENERGY REPORTS FIRST QUARTER 2011 EARNINGS

**Houston, TX** — **May 5, 2011** - <u>CenterPoint Energy, Inc.</u> (NYSE: CNP) today reported net income of \$148 million, or \$0.35 per diluted share, for the first quarter of 2011 compared to \$114 million, or \$0.29 per diluted share, for the same period of 2010. Operating income for the first quarter of 2011 was \$364 million compared to \$357 million for the same period of 2010.

"This was a good quarter for our company," said David M. McClanahan, president and chief executive officer of CenterPoint Energy. "We received a favorable decision from the Texas Supreme Court in our true-up case. Our regulated electric and natural gas utilities and our interstate pipelines performed well, and our field services unit continues to realize growth from the investments we have made in the Haynesville shale. I remain optimistic about future investment opportunities in our businesses."

#### **Electric Transmission & Distribution**

The electric transmission & distribution segment reported operating income of \$101 million for the first quarter of 2011, consisting of \$68 million from the regulated electric transmission & distribution utility operations (TDU) and \$33 million related to securitization bonds. Operating income for the first quarter of 2010 was \$107 million, consisting of \$71 million from the TDU and \$36 million related to securitization bonds. Operating income for the TDU benefited from growth of over 29,000 metered customers since March 2010, which was more than offset by higher operation and maintenance expenses primarily associated with system reliability programs.

#### **Natural Gas Distribution**

The natural gas distribution segment reported operating income of \$142 million for the first quarter of 2011 compared to \$139 million for the same period of 2010. The increase in operating income resulted primarily from lower bad debt expense, partially offset by increases in other operating expenses. Reduced throughput as a result of milder weather was mitigated by weather hedges, weather normalization adjustment mechanisms and increased throughput to large volume customers.

#### **Interstate Pipelines**

The interstate pipelines segment reported operating income of \$76 million for the first quarter of 2011 compared to \$72 million for the same period of 2010. Higher revenues from firm contracts associated with Phase IV of the Carthage to Perryville pipeline and new power plant transportation contracts were partially offset by reduced revenues from ancillary services. Operation and maintenance expenses were lower primarily due to an insurance settlement.

For Immediate Release Page 2 Of 5

In addition to operating income, this segment recorded equity income of \$4 million for the first quarter of 2011 from its 50 percent interest in the Southeast Supply Header (SESH) compared to equity income of \$3 million for the same period of 2010.

#### **Field Services**

The field services segment reported operating income of \$36 million for the first quarter of 2011 compared to \$23 million for the same period of 2010. Revenue growth from higher gathering volumes, primarily associated with projects in the Haynesville shale, was partially offset by increased operation and maintenance expenses primarily related to facility expansions.

In addition to operating income, this business had equity income of \$2 million in each of the first quarters of 2011 and 2010 from its 50 percent interest in a gathering and processing joint venture (Waskom).

#### **Competitive Natural Gas Sales and Services**

The competitive natural gas sales and services segment reported operating income of \$10 million for the first quarter of 2011 compared to \$15 million for the same period of 2010. Operating income for the first quarter of 2011 included charges of \$2 million resulting from mark-to-market accounting for derivatives associated with certain forward natural gas purchases and sales used to lock in economic margins, compared to gains of \$3 million for the same period of 2010.

## **True-up Decision**

On March 18, 2011, the Texas Supreme Court issued its decision in the company's true-up case, the proceeding in which the Texas Public Utility Commission (PUC) determined the amount of stranded costs and other amounts due to the company as a result of the restructuring of the Texas electric industry in 1999. The Supreme Court's decision remains subject to motions for rehearing and must be implemented through a remand to the PUC. Based on the Court's decision, the company plans to seek a Financing Order from the PUC to authorize securitization of approximately \$1.85 billion, which includes interest through September 30, 2011.

#### **Dividend Declaration**

On April 21, 2011, CenterPoint Energy's board of directors declared a regular quarterly cash dividend of \$0.1975 per share of common stock payable on June 10, 2011, to shareholders of record as of the close of business on May 16, 2011.

#### **Outlook Reaffirmed for 2011**

CenterPoint Energy reaffirmed its 2011 earnings guidance of \$1.04 to \$1.14 per diluted share. This guidance takes into consideration various economic and operational assumptions related to the business segments in which the company operates. The company has made certain assumptions regarding financing activities and the impact to earnings of various regulatory proceedings. In providing this guidance, the company has not included the impact of any changes in accounting standards, any impact from significant acquisitions or divestitures, any impact to income from the change in value of Time Warner stocks and the related ZENS securities, or the timing effects of mark-to-market or inventory accounting in the company's competitive natural gas sales and services business. It also does not reflect the recording of the Texas Supreme Court's decision in the TDU's true-up appeal. For the impact of these factors on the company's earnings for the three months ended March 31, 2011, see the attached reconciliation.

#### Filing of Form 10-Q for CenterPoint Energy, Inc.

Today, CenterPoint Energy, Inc. filed with the Securities and Exchange Commission (SEC) its Quarterly Report on Form 10-Q for the period ended March 31, 2011. A copy of that report is available on the company's website, under the <u>Investors section</u>. Other filings the company makes with the SEC and other documents relating to its corporate governance can also be found on that site.

#### **Webcast of Earnings Conference Call**

CenterPoint Energy's management will host an earnings conference call on Thursday, May 5, 2011, at 10:30 a.m. Central time or 11:30 a.m. Eastern time. Interested parties may listen to a live audio broadcast of the conference call on the company's website, under the <u>Investors section</u>. A replay of the call can be accessed approximately two hours after the completion of the call and will be archived on the website for at least one year.

CenterPoint Energy, Inc., headquartered in Houston, Texas, is a domestic energy delivery company that includes electric transmission & distribution, natural gas distribution, competitive natural gas sales and services, interstate pipelines, and field services operations. The company serves more than five million metered customers primarily in Arkansas, Louisiana, Minnesota, Mississippi, Oklahoma and Texas. Assets total more than \$19 billion. With over 8,800 employees, CenterPoint Energy and its predecessor companies have been in business for more than 135 years. For more information, visit the company's website at <a href="Maintenancemons.org">CenterPointEnergy.com</a>.

For Immediate Release Page 4 Of 5

This news release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual events and results may differ materially from those expressed or implied by these forward-looking statements. The statements in this news release regarding the company's earnings outlook for 2011 and future financial performance and results of operations, the expected request for future recovery as a result of the Texas Supreme Court's true-up decision, and any other statements that are not historical facts are forward-looking statements. Each forward-looking statement contained in this news release speaks only as of the date of this release. Factors that could affect actual results include (1) the resolution of the true-up proceedings, including, the outcome of requests to the Texas Supreme Court for rehearing, future actions by the Public Utility Commission of Texas in response to the decisions by the Texas Supreme Court and the Texas Third Court of Appeals, and any further appeals thereof; (2) state and federal legislative and regulatory actions or developments relating to the environment, including those related to global climate change; (3) other state and federal legislative and regulatory actions or developments affecting various aspects of CenterPoint Energy's businesses, including, among others, energy deregulation or re-regulation, pipeline safety, health care reform, financial reform and tax legislation; (4) timely and appropriate rate actions and increases, allowing recovery of costs and a reasonable return on investment; (5) the timing and outcome of any audits, disputes or other proceedings related to taxes; (6) problems with construction, implementation of necessary technology or other issues with respect to major capital projects that result in delays or in cost overruns that cannot be recouped in rates; (7) industrial, commercial and residential growth in CenterPoint Energy's service territories and changes in market demand, including the effects of energy efficiency measures, and demographic patterns; (8) the timing and extent of changes in commodity prices, particularly natural gas and natural gas liquids, and the effects of geographic and seasonal commodity price differentials; (9) the timing and extent of changes in the supply of natural gas, including supplies available for gathering by CenterPoint Energy's field services business and transporting by its interstate pipelines; (10) weather variations and other natural phenomena; (11) the impact of unplanned facility outages; (12) timely and appropriate regulatory actions allowing securitization or other recovery of costs associated with any future hurricanes or natural disasters; (13) changes in interest rates or rates of inflation; (14) commercial bank and financial market conditions, CenterPoint Energy's access to capital, the cost of such capital, and the results of our financing and refinancing efforts, including availability of funds in the debt capital markets; (15) actions by rating agencies; (16) effectiveness of CenterPoint Energy's risk management activities; (17) inability of various counterparties to meet their obligations; (18) non-payment for services due to financial distress of CenterPoint Energy's customers; (19) the ability of GenOn Energy, Inc. (formerly known as RRI Energy, Inc.) and its subsidiaries to satisfy their obligations to CenterPoint Energy and its subsidiaries; (20) the ability of retail electric providers, and particularly the two largest customers of the TDU, to satisfy their obligations to CenterPoint Energy and its subsidiaries; (21) the outcome of litigation brought by or against CenterPoint Energy; (22) CenterPoint Energy's ability to control costs; (23) the investment performance of pension and postretirement benefit plans; (24) potential business strategies, including restructurings, acquisitions or dispositions of assets or businesses; (25) acquisition and merger activities; and (26) other factors discussed in CenterPoint Energy's Annual Report on Form 10-K for the fiscal year ended December 31, 2010, and Form 10-Q for the quarter ended March 31, 2011, and other reports CenterPoint Energy or its subsidiaries may file from time to time with the Securities and Exchange Commission.
